

CAT4534

*Not shown to scale.

045" x 3/4" x 108' Acrylic Foam Very Hi-Bond Adhesive Cladding Tape.

Specifications

Material: Acrylic

Roll Length(in): 108 ft. (33 m)

Width(in): 3/4 in. (19 mm)

Tape Thickness: 1/16 in. (1.1 mm)

Product Overview:

- Pressure sensitive high-strength adhesive with tenacious holding power.
- Bonds to most clean, dry surfaces instantly.
- Used for adhering cladding to base shoe.
- Solid acrylic core for superior strength.

Recommendations:

For use with both dry glaze and wet/cement glaze base shoe.

UNIKOO LIMITED WARRANTY:

- UNIKOO warrants its commercial hardware for a period of 1 year from the date of purchase. UNIKOO commercial hardware is warranted against material and workmanship defects.
- All warranty claims are subject to inspection by UNIKOO before providing a resolution against the warranty claim.
- This warranty is void if it is determined after UNIKOO inspection that the Hardware has been improperly installed and/or maintained in a manner not conforming to UNIKOO guidelines and instructions provided at time of purchase.
- UNIKOO's responsibility to provide a resolution under said warranty will be limited to a refund of purchased price or provide a replacement for the hardware.
- The refund or replacement will constitute UNIKOO's limited liability and obligation for any and all defective material/workmanship for said warranty claim.
- THIS WARRANTY IS EXCLUSIVE AND UNIKOO MAKES NO OTHER WARRANTY, EXPRESSED OR IMPLIED.
